M.Sc. Candidate

Ph.D. Candidate

Start Date of Graduate Program (month/year):

Anticipated End Date (month/year):

Graduate thesis Supervisor (Name/email address):

Project Title:

Provide an overview of your thesis project including goals, methodologies, and anticipated outcomes, including how your project will add value to the discovery and/or development of mineral and energy resources in BC (max 400 words):

Describe your progress on your thesis project to-date. If you are a PhD student applying for a second year of funding, please be clear on what progress you have made overall AND in the last year (max 250 words):

Describe how your project will support your future career goals. (Max 250 words)

Other Application Requirements

A resume detailing your education and relevant work and volunteer experience has been submitted to Geoscience BC.

I have arranged for two signed reference letters to be submitted directly to Geoscience BC from the following:

a) Name and email

b) Name and email

If awarded a Geoscience BC scholarship, I understand and agree to the following conditions of funding (further outlined in the Geoscience BC Scholarship Application Guide:

I will acknowledge Geoscience BC's support in all work resulting from my project.

I will produce a technical report that will be published (online and hardcopy) in Geoscience BC's 2020 Summary of Activities (draft due October 2020).

I will present a poster or presentation at a technical conference (e.g. Minerals Exploration Roundup 2021, Geoconvention 2021/ another conference with the approval of Geoscience BC) and provide Geoscience BC with a copy of that poster or presentation to be published online.

I will send Geoscience BC a digital copy of my thesis upon its acceptance by my university.

I will provide Geoscience BC with a photo of myself and a short project summary, which Geoscience BC may publish.
