### 1. Basis of presentation

The purpose of Geoscience BC Society ("Geoscience BC" or "the Society") is to undertake and support the independent collection and public dissemination of earth science research in British Columbia.

These interim financial statements have been internally-prepared by Geoscience BC and have not been audited or reviewed by an independent public accountant. These statements are designed for the internal use of Geoscience BC members only and are not necessarily presented in a manner consistent with Canadian accounting standards for not-for-profit organizations. Accordingly, these statements should be read in conjunction with the Society's most recent annual financial statements as at and for the year ended March 31, 2021, available on Geoscience BC's website.

### 2. Accounting policy - Allocation of expenditures

On April 1, 2019, Geoscience BC adopted a new accounting policy in respect of its allocation of expenditures, with expenditures being accounted for retrospectively resulting in no changes to its opening net assets for the periods presented.

The Society generates independent, relevant, public earth science research and data about British Columbia's minerals, energy and water resources. The costs of managing each of the Society's projects include the costs of personnel, and other expenditures that are directly related to project provision. The Society also incurs a number of general support expenditures that are common to the administration of the Society and each of its projects.

The Society allocates certain expenditures by identifying the appropriate basis of allocating each component expenditure, and applies that basis consistently for each period disclosed. General support expenditures are allocated to the following functions based on personnel time and directly related expenditures: Project management and technical support; Governance, management and finance; Public access and data management; and External relations and communications. The amounts and the functions to which they have been allocated are disclosed in Note 6.

### 3. Investments

	Market Value	
	Sept 30, 2021	March 31, 2021
	\$	\$
BMO Nesbitt Burns High Interest Savings account	579,308	1,976,682
Guaranteed Investment Certificates ("GIC's")	5,600,000	6,000,000
	<u>6,179,308</u>	<u>7,976,682</u>

Geoscience BC considers its investments to be 'available for sale' securities and hence they are carried at current market values.

7. Subsequent events

The Society withdrew \$500,000 from its high interest savings account to meet its funding obligations.

On December 1, 2021, a \$2 million GIC matured, the proceeds were deposited to the Society's bank account, and \$1.75 million was then transferred to the high interest savings account.

Between October 1st and December 16th, 2021 Geoscience BC disbursed an aggregate of \$272,086 in previously-approved and restricted project spending.
