1. Basis of presentation - lack of independence

These financial statement have been internally-prepared by a Director of Geoscience BC and have not been audited or reviewed by an independent public accountant. These statements are designed for the internal use of Geoscience BC members only and are not necessarily presented in a manner consistent with generally accepted accounting principles.

2. Temporary investments

	Maturity value \$	Market value \$
Banker's acceptance, BNS, due January 30, 2007	3,078,000	3,066,304
Banker's acceptance, RBC, due April 25, 2007	2,298,000	2,266,540
Banker's acceptance, RBC, due October 19, 2007	2,808,000	2,715,055
	<u>8,184,000</u>	<u>8,047,899</u>
Connor, Clark and Lunn aggregate portfolio, at market value	n/a	10,212,280
		<u>18,260,179</u>

In November 2006 Geoscience BC invested an aggregate of \$18.0 million, as to \$8.0 million in three Banker's acceptances (which are of approximately equal amount and which are staggered to mature at 3, 6 and 12 month intervals, respectively), and \$10.0 million to pooled funds managed by Connor, Clark and Lunn Private Capital.

Geoscience BC considers these to be 'available for sale' securities and hence new Canadian accounting guidance, which would be mandatory to follow in fiscal 2007-08 and which has been electively-adopted currently, requires that they be carried at current market values. The Connor, Clark and Lunn value is net of current investment management fees charged of \$9,218 and included in the Statement of Operations as an expense.

3. Funding Commitments

Geoscience BC had approved the following undisbursed funding at December 31, 2006:
