		11,554,803

In November 2006 Geoscience BC initially invested an aggregate of \$18.0 million, as to \$8.0 million in three Banker's acceptances (which were of approximately equal amount and which were staggered to mature at 3, 6 and 12 month intervals, respectively), and \$10.0 million to pooled funds managed by Connor, Clark and Lunn Private Capital.

In April 2008 Geoscience BC invested an aggregate of \$11.0 million, as to \$6.0 million in an annual GIC and \$5.0 million to pooled funds managed by Connor, Clark and Lunn Private Capital.

Geoscience BC considers these to be 'available for sale' securities and hence they are required to be carried at current market values. The Connor, Clark and Lunn value is net of current investment management fees charged of \$13,650 and included in the Statement of Operations as an expense.

To June 30, 2010, approximately \$18 million of these investments had been redeemed for purposes of funding current expenditures.
