

Geoscience BC Report 2022-07

January 31, 2022

Digital Appendix 1.

Physical property data were collected at the Geological Survey of Canada - Pacific's Paleomagnetism and Petrophysics Laboratory. Details on measurement methodologies can be found here:

Enkin, R.J., Cowan, D., Tigner, J., Severide, A., Gilmour, D., Tkachyk, A., Kilduff, M., Vidal, B. and Baker, J. (2012): Physical property measurements at the GSC Paleomagnetism and Petrophysics Laboratory, including electric impedance spectrum methodology and analysis; Geological Survey of Canada, Open File 7227, 42 p., DOI: 10.4095/291564

Coordinates are in NAD83 UTM Zone 10
