

Geoscience BC Report 2022-07

January 31, 2022

Deliverables – Magnetic targets

Magnetic targets chosen for investigation based on geophysical trends of porphyry host rocks in the southern Quesnel terrane.

Refer to the main report for details on how magnetic targets were chosen.

Coordinate system is NAD 83 UTM Zone 10

Folder contents

“Magnetic_targets.dxf”

- 2D dxf file of (57) central Quesnel magnetic targets

“mag_targets.shp”

- Shapefile of (57) Quesnel magnetic targets
