

Selected Sample Location
by Cluster

● Cluster #19 (Mo)

Sample location

Mineral deposit (selected)

Populated place (unclassified)

Railroad (unclassified)

Road (unclassified)

Airborne Geophysical Survey Area

Provincial boundary

Figure 12. Spatial Distribution of samples belonging to elevated Mo nodes identified on Figure 11

QUEST Project

Scale 1 : 2,500,000
0 25 50 100 km

Universal Transverse Mercator Projection, Zone 10
Horizontal Datum: North American Datum 1983
