

# GEOSCIENCE BC MEMBERSHIP

Geoscience BC membership options make it easy for a wide range of partners to **support, provide input, network and stay up to date** on Geoscience BC minerals, energy and water research.

**Corporate, Individual, Student and Associate memberships** provide a variety of options to suit industry, academia, communities, Indigenous groups and governments as we work towards shared goals.

This is essential as the transition to a lower carbon economy increases demand for British Columbia’s natural resources, and with it the need for quality public geoscience to inform evidence-based decisions, including those relating to critical minerals and metals supply, emissions reduction and cleaner energy generation.

## Membership Levels and Benefits

	Corporate	Individual	Student	Associate
<b>COLLABORATION &amp; INFORMATION</b>
