

2023 GEOSCIENCE BC SCHOLARSHIP PROGRAM SPONSORSHIP

The Geoscience BC Scholarship Program provides a valuable lift to the next generation of geoscientists in British Columbia. This important early-career support has helped many past recipients go on to highly successful careers in British Columbia and beyond.

Since 2007, the Geoscience BC Scholarship Program has provided **\$720,000** in support to masters and PhD students. It awards **\$5,000 scholarships to up to ten students** who have registered and started in a **MSc or PhD program in earth science, geoscience or applied geoscience and are working on British Columbia-focused geoscience research projects** that advance knowledge, inform responsible development, encourage investment or stimulate innovation. This can include studies relating to **minerals and mining, energy resources, carbon capture and storage and water**. 2022 Scholarship Program recipients' studies focused on subjects such as [critical minerals, clean energy, carbon management](#).

APPLICATIONS FOR THE 2023 GEOSCIENCE BC SCHOLARSHIP PROGRAM ARE OPEN AND RECIPIENTS WILL BE ANNOUNCED IN JUNE.

A VALUABLE OPPORTUNITY

New geoscience and a new generation of geoscientists are essential for British Columbia to play its role in a transition to a net-zero economy. 2023 Geoscience BC Scholarship Program sponsorship opportunities are a valuable way to:

> Demonstrate how your organization creates value from public geoscience

> Build your profile and demonstrate your support for the next generation of geoscientists; build relationships with a new generation of talent

> Demonstrate thought leadership and lead the conversation about geoscience research needs and opportunities

> Ensure a prosperous future for the Geoscience BC Scholarship Program
